DETAILED ACTION

1. Claim 6 is pending.
2. Response filed 06/04/2007 has been received and considered.

Allowable Subject Matter

3. Claim 6 is allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicant's arguments presented 06/04/2007 are persuasive. Specifically the prior art fails to teach two distinct adding circuits for adding rights information to individual audio programs and album groups where the rights information includes copyright and charging condition information. The prior art teaches including the rights information with audio programs and/or albums (i.e. in a management table) but fails to explicitly disclose adding this information to the programs and albums and recording these onto a recording medium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
